4. Meteora Tour

A trip to Meteora offers the unique experience of nature's grandeur in conjunction with history, architecture and man's everlasting desire to connect with the Divine.

From the early Christian times, the Meteora vertical cliffs were regarded as the perfect place to achieve absolute isolation, to discover peace and harmony and, thus, to support man's eternal struggle for spiritual elevation.

Meteora is a truly inspiring and sensational setting of overwhelming rock formations, but one must also be prepared to expect that this trip is much more than merely visiting an exquisite landscape.

It is a pilgrimage to a holy place for all Christians around the world. Meteora has become a preservation ark for the 2000-year-old Christian Orthodox creed.

5. Zagori Tour

Aristi - Papingko - Voidomatis river

Zagori, is a region and a municipality in the Pindus mountains in Epirus, in northwestern Greece. It has an area of some 1,000 square kilometers and contains 46 villages known as Zagori villages (or Zagorochoria or Zagorohoria), and is in the shape of an upturned equilateral triangle.

Aristi is built at an altitude of 650 m on the northern slopes of the Grabala Hill or for the locals "Roynikos", on the opposite side of the impressive rocks of Astraka. The village is located at the boundary of the Vikos – Aoos National Park and it is considered to be one of the most beautiful villages of Zagori.

Papingo consists of two villages: Megalo Papingo and Mikro Papingo. There is a single road that provides access first to Megalo Papingo and a kilometre further to Mikro Papingo.

Visit important landmarks like Monastery of Panagia Spileotisas, Voidomatis river and gorgeous stone pools on the way to Mikro Papingko.

6. Zagori Tour

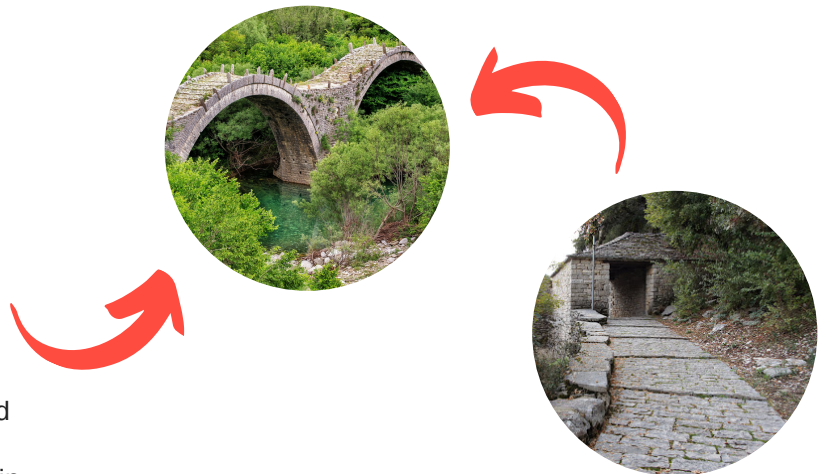

Monodendri - Kipoi - Vitsa

Do not miss the opportunity to walk on the old stone bridges, enjoy the dew under the plane trees, walk to the cobbled streets and see the wonderful gorge of Vikos.

As with the other Zagori villages, Monodendri enjoyed an extended period of commercial and economic prosperity during the 17th and 18th centuries. There were schools built, churches in the Byzantine style and luxurious stone manors. Monodendri is built at a height of 1,060 meters (3,480 ft) and retains much of the traditional stone-built architecture.

In Kipoi, the traditional architectural style of Epirus is well preserved, with stone built roads and dwellings. The village is surrounded by stone bridges.

Not far from the villages lies a three arched stone bridge, of the 18th century. The bridge is also a unique tourist attraction of today, on the local road to central Zagori, just out of the village.

7. Ioannina Tour

Day exploration in Ioannina

Ioannina is one of Northern Greece's most atmospheric cities. It is set on the western shore of the lovely Lake Pamvotis, and framed by the impressive mountain range that turns lilac at sunset.

The walls of the Kastro enclose an atmospheric, tranquil old quarter, and the lakeside area is lined by opulent plane trees that let in dappled afternoon sunlight.

Together with jutting minarets, the fantastic fortress and the unique appeal of To Nisi (The Island), Ioannina makes a beautiful place to visit.

Trip takes from 8 to 12 hours according to clients needs.

9. Vergina Tour

A 14 hours trip from Corfu starts at 07.30 to Vergina, a modern village, and following the discovery the site was identified as Aigai, the ancient capital of the Macedonian kings, together with its cemetery.

Vergina is one of those finds which archaeologists dream about - a well preserved discovery, proven association with a famous historical person, and real treasure!

A tumulus measuring about 110m wide by 13m high turned out to cover some tombs. Not just any old tombs, either. One of them was identified as that of Philip II of Macedon, the father of Alexander the Great. Another is thought to belong to Alexander IV, the son of Alexander the Great.

The visitor will also see a plundered a cist family tomb (I), known as the "Tomb of Persephone", with the incomparable fresco of the abduction of Persephone by Hades and a ruined building named "Heroon", probably used for the worship of the dead royal members buried next door. Some of the major finds exhibited here are the two golden urns, containing the bones of Philip II and one of his wives, two oak and one myrtle golden wreaths worn by the royal dead.
